

**SCRAM**<sup>®</sup>  
CONTINUOUS ALCOHOL  
MONITORING

The world's most widely used and trusted  
24/7 transdermal alcohol testing system

99.3% of clients are completely  
sober and compliant every day.

**SCRAM Continuous Alcohol Monitoring<sup>®</sup> (SCRAM CAM<sup>®</sup>)** provides 24/7 monitoring for your higher-risk/higher-need alcohol clients. With the flip of a switch, add optional RF curfew monitoring to your alcohol testing protocol.

### Features

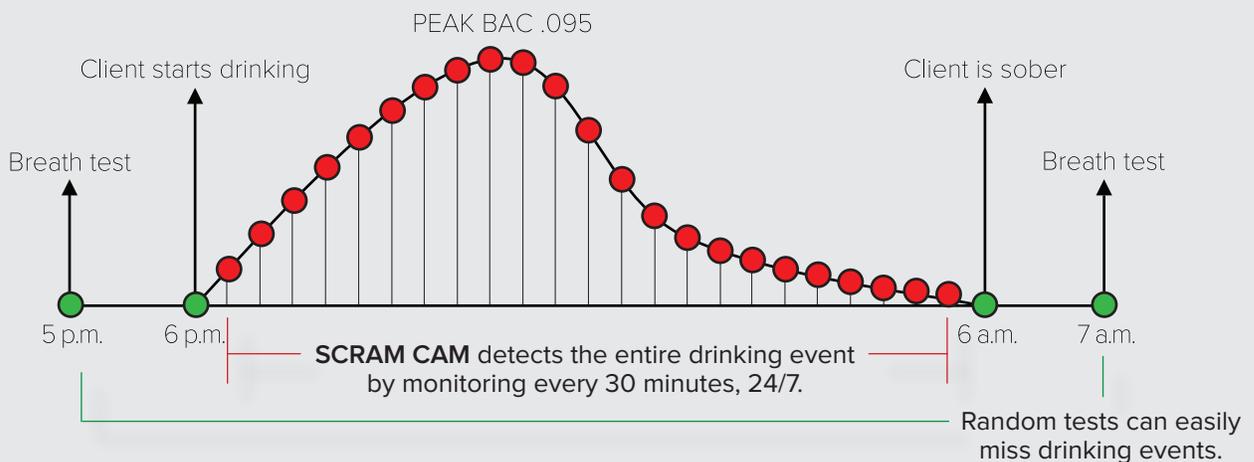

- Automated, non-invasive monitoring
- Samples perspiration every 30 minutes
- Industry-leading anti-tamper technology
- Data analysis of every alert
- Independently tested, court validated
- 24/7 customer support
- Integrated optional house arrest

### Benefits

- Continuous, automated testing means no drinking around test schedules
- Single-source admissibility—no back-up tests required
- Confidence in test results—conclusively distinguishes alcohol consumption vs. environmental alcohol sources
- National network of SCRAM Authorized Service Partners
- Flexible base station options allow clients to connect via Ethernet, cellular, Wi-Fi, or landline

## Random vs. Continuous Testing for Higher-Risk Clients

Alcohol metabolizes quickly, which means clients can drink around EtG, random, and scheduled breath tests.

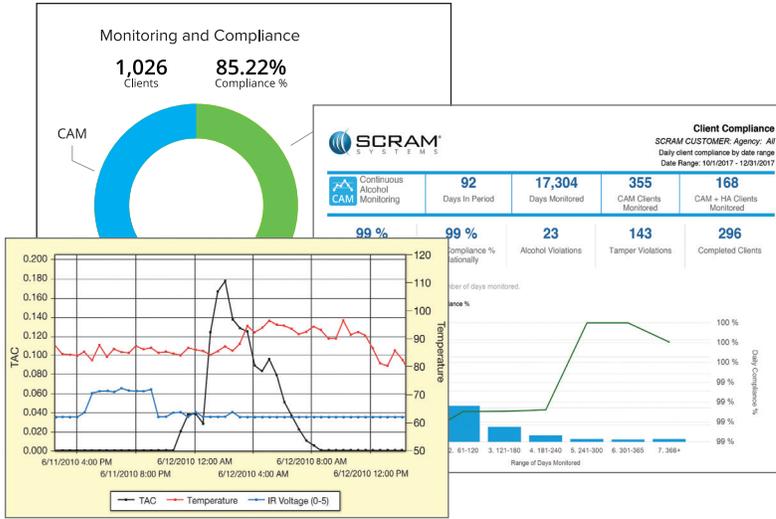

# 24/7 Alcohol Monitoring with Dynamic Client Management

## Integrated Software and Mobile Solutions

SCRAMNET Optix™ provides an intuitive, unified portal to manage your entire electronic monitoring caseload

The SCRAMNET Mobile™ app enables officers to access SCRAM CAM client information on-the-go

Clients can securely message their officers and receive automated EM reminders through the SCRAM client app

## Reporting and Analytics

Alerts graphically depict alcohol readings, obstructions, and tampers

Integrated reports and powerful SCRAM Advanced Program Analytics visualize and surface key metrics

## Program Management Center™

Around-the-clock customer support via toll-free phone, email, or online chat

Dynamic web-based and in-person training courses to meet the needs of your entire team

Comprehensive court support including proper documentation, court reports, and testimony assistance

Automated visibility into your inventory with built-in tools to manage your devices
